

Project Objectives

Team ID	PNT2022TMID03873
Project Name	Project - Deep Learning Fundus Image Analysis for Early Detection of Diabetic Retinopathy

By the end of this project you will:

- Know fundamental concepts and techniques of Convolutional Neural Networks
- Gain a broad understanding of image data.
- Work with Sequential type of modeling
- Work with image processing techniques
- know how to build a web application using the Flask framework.
